

Fenchurch Faris Ltd.

Construction

Demand for construction has rebounded since the pandemic. But the industry faces ongoing challenges, including supply chain disruption and scarcity of materials, a lack of available talent and the uncertainty of operating in a volatile economic landscape.

Our Construction division uses its extensive experience to assist clients in designing and implementing construction insurance solutions that align with their specific risk profiles and goals.

FENCHURCH

Our Commitment

Our construction insurance solutions are designed to help protect your business from various risks and liabilities. With over 40 years of experience, our professional indemnity team can offer cost-effective coverage for claims resulting from errors, omissions, or negligent advice. We also provide owner controlled insurance (OCIP), latent defects insurance, and pollution liability insurance to address specific needs.

Our Industry Experience

We can meet the insurance requirements for all types of onshore and offshore construction and engineering projects, across the planning, construction, erection, installation and operational phase. This includes:

- **Infrastructure:** Roads, bridges, ports and terminals, airports, rail
- **Power:** Gas, hydroelectric, transmission and distribution lines
- **Renewable energy:** Carbon capture, wind farms, solar, battery storage
- **Industrial, Process and Natural Resources:** Petrochemical and chemical plants, steel mills, manufacturing
- **Buildings:** Commercial, data centres, residential
- **Oil and gas:** LNG facilities, pipelines & gathering systems, refineries
